

Our Body Corporate committee has found Archers, and Grant Mifsud in particular, to be professional, knowledgeable and very helpful at all times. Grant is prepared to address routine issues (as I'm sure most would agree, many B/C committee members are otherwise busy people) as well as complex issues based on relevant management Acts.

I also personally have met the principals of Archers B/C Management and am impressed with their determination to both provide first class service and keep abreast of issues.

I have no hesitation in recommending Archers Body Corporate Management to other Body Corporate committees.

Hon. Keith De Lacy AM
Chairperson – Macarthur Chambers

I am the Chairperson of the Principal Body Corporate and Terraces 2 Body Corporate at the Regatta Riverside Complex located at Toowong. This complex is comprised of 5 Bodies Corporate with the 5th being the Principal Body Corporate. The complex consists of 2 ten storey towers and 2 banks of terrace units with a total of 187 units in the complex.

During the years I have had some experience with other Unit complexes and having a professional company like Archers to deal with makes life much easier. I have found that Grant Mifsud from Archers has a wealth of knowledge and is very pleasant to deal with. Archers are a truly professional company and this shows with the quality of their staff, professionalism and support given to their customers.

I have no hesitation in recommending both Grant Mifsud and Archers to any Body Corporate.

Mr Darren Haggarty
Chairperson - Regatta Riverside Principal Body Corporate

Archers Body Corporate Management has assisted Newstead Terraces by providing a professional administrative service that meets the requirements of legislation and ensures that body corporate business is carried out effectively. Grant Mifsud from Archers Brisbane office provides timely and accurate advice to the committee on matters of significance to body corporate administration, including budget preparation and financial management. With the administrative detail attended to, the committee is able to focus on the decisions needed to manage Newstead Terraces day by day, and the strategic direction for body corporate development of the site.

Mr Peter Nimmo
Chairperson - Newstead Terraces

Peninsular Beachfront Resort was completed in January 1994, and the firm now known as Archers Body Corporate Management (Sunshine Coast) was appointed as Body Corporate Managers at that time.

I was appointed Chairman of the Body Corporate Committee at the first EGM and have remained in that position ever since. Mrs Sharon Withford has been responsible for the Body Corporate Management of the complex and is able to advise the committee how to attend to any contentious points raised. She also is very knowledgeable with the Body Corporate Community Management Act and is able to guide the committee in making the right decisions.

In my profession as a Real Estate Agent and Valuer, I have had dealings with many Body Corporate Managers and am of the opinion that Archers Body Corporate Management is head and shoulders above other similar companies. Their management team is always willing to assist in any questions asked and they are very professional in the manner in which they respond and manage problems that arise from time to time.

I would have no hesitations in recommending Archers Body Corporate Management to any Body Corporate Committee, and I have done so from time to time. I have no doubt that the Peninsular Beachfront Resort is fortunate to have Sharon and Archers Body Corporate Management as our Body Corporate Managers.

Mr David Cameron
Chairperson – The Peninsular Apartments

I have been on our body corporate committee for just over 4 years. Our body corporate is part of a layered scheme which includes 4 other schemes. Our body corporate and other bodies corporate in our scheme weren't happy with the service we were receiving from our previous management company in Brisbane because of lack of return phone calls, lack of proper budget plans especially with the sinking fund and in a couple of cases, incorrect advice.

A committee member from another body corporate in our complex and myself researched and interviewed several body corporate management companies here on the Sunshine Coast. We finally decided on Archers after having an interview with Blake Hoger. We have never regretted our decision.

Archers & especially Blake have attended to our body corporate needs in a professional and prompt manner. They have recommended procedures which have ensured proper budget planning and compliance with any legal and workplace safety requirements.

Archers also support seminars on body corporate matters here on the Sunshine Coast.

I have no hesitation in recommending both Blake Hoger & Archers to any Body Corporate.

Mr Michael Bunney
Treasurer – North Shore Village Apartments East
